Manual Style Conventions

The following conventions are used throughout user documentation for easier readability:

Area or Action	Format	Example
Table Reference	A table reference is denoted by brackets before and after the table name.	[Technology]
Field Reference	A field reference is denoted by a table reference followed by the field name.	[Technology]Case Number
Values	Quotes are use to denote values.	"LAR-11001-1" [Technology]Case Number
Menu	Bold-->With plain arrows--> denoting the different --> Levels.	From the File menu, select File --> Page Setup...
Button	Italics are used to denote buttons.	...click the <i>Cancel</i> button
Methods	Methods are denoted by bold text.	TechOrgCodes
Variable	Variables are denoted by Bold Italic text.	<i>vTTName</i> (Which stands for the Tech Transfer Officer Name - ie "Jim Alberti")

NOTE: NASA TechTracS Expressions includes both methods and variables

Overview

Licensing technologies from innovators to others and tracking of royalties from licensing.

Features

- Record Licensing information for technologies.
- Include Royalty information regarding the License.
- Include Links to Related Technologies in NASA TechTracS

Use of the Module

License records are entered through the License table of TechTracS with related records entered into the License Milestones, Chronology, Royalties, and other related tables in this process. Various letters are generated or selected for printing by the user concerning the license.

Find by... License # Dates Comp/POC Case # Royalties Active Lic. Query

*** Proprietary Information ***

The first page of the License module input form is divided into two sections, a General section regarding the title, licensee, license type, number, and attorney and intellectual property/access information and a Status Dates section. Note: When the License Number at the top of the page is entered the field names Potential Licensee and Potential Licensee Contact will change to Licensee and Licensee Contact.

Clicking “Submit to HQ” will allow NASA TechTracS to send the record to the Agency Wide database. Clicking “Release Limited License Data to NTAS” will allow the record to be sent from Agency Wide to Public.

In the control area of the first page of the License form, there are four buttons that will appear if the respective conditions are met. A blue thumb- tack will appear if there have been comments received regarding the License. A yellow seal will appear if there have been sublicensing royalties applied to the license. A wrench icon button will appear if there have been modifications to the license. And an exclamation point icon will appear if there are milestones to be viewed. Clicking any one of these buttons will take the user to the Chronology/Milestones page to view the relevant descriptions of these actions.

Automatic NASA TechTracS letters will be triggered if any of the following entries are made: License Type with License Application Received, Sent to Co. for signature, or Sent to HQ for Execution. The letters will appear for preview and modification if they are flagged “Modify First” in the Documents table.

License List Screen

Using the standard NASA TechTracS list screen mechanism, this screen shows the License Application Number, License Number, Title fields and the Effective, Expiration, and Termination Date fields.

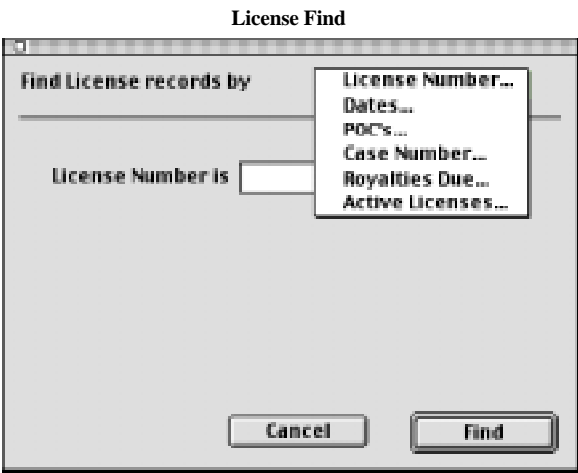

License List Screen

License [read only]: 2574 records in selection					
License App	License No.	Title	Effective	Expiration	Termination

Find by... License # Dates Comp/POC Case # Royalties Active Lic. Query

Find

In addition to the standard query tools, Licenses may be queried using the custom Find utility:

Records may be found using:

License Number	Company	Case Number
Received Date	Attorney	Royalties Due Month/Year
Effective Date	Tech Point of Contact	Active Licenses by Date
Expiration Date	Company POC	
Termination Date	Technical POC	

Batch Update Routines

Recalculate Royalties	Only available to users in <i>DBA</i> group, this Batch Update Routine recalculates the following fields in the current selection of License records: <i>Initial_Fee_Received</i> , <i>Cumulative_Minimum_Royalty_Rcvd</i> , <i>Cumulative_Running_Royalty_Rcvd</i> , <i>Cumulative_Amount_Rcvd</i> .
Reset License Totals	Only available to users in <i>DBA</i> group, this Batch Update Routine performs the same function as the Recalculate Royalties Batch Update Routine and in addition recalculates the following fields in the current selection of License records: <i>Cumulative_To_Inventors</i> , <i>Cumulative_To_Center</i> , <i>Cumulative_To_Other</i> , <i>Net_Sales</i> , <i>Amount_of_Units</i> , <i>Gross_Sales</i> , <i>Sublicensing_Royalties</i> , <i>Cumulative_Net_Sales</i> , <i>Cumulative_Units</i> , <i>Cumulative_Gross_Sales</i> , <i>Cumulative_Sublicensing_Royalti</i> .

License Record Screen

The License Record Screen uses the standard NASA TechTracS record screen. It has seven data pages each of which is described in more detail in the following sections.

Overview

License records are entered through the License table of TechTracS with related records entered into the License Milestones, Chronology, Royalties, and other related tables in this process. Various letters are generated or selected for printing by the user concerning the license.

Find by... | License # | Dates | Comp/POC | Case # | Royalties | Active Lic. | Query

*** Proprietary Information ***

The first page of the License module input form is divided into two sections, a General section detailing the title, licensee, license type, number, and attorney and intellectual property/access information and a Status Dates section.

Note: When the License Number at the top of the page is entered the field names Potential Licensee and Potential Licensee Contact will change to Licensee and Licensee Contact.

Clicking "Submit to HQ" will allow NASA TechTracS to send the record to the AgencyWide database. Clicking "Release Limited License Data to NTAS" will allow the record to be sent from Agency Wide to Public.

In the control area of the first page of the License form, there are four buttons that will appear if the respective conditions are met. A blue thumb- tack will appear if there have been comments received regarding the License. A yellow seal will appear if there have been sublicensing royalties applied to the license. A wrench icon button will appear if there have been modifications to the license. And an exclamation point icon will appear if there are milestones to be viewed. Clicking any one of these buttons will take the user to the Chronology/Milestones page to view the relevant descriptions of these actions.

Automatic NASA TechTracS letters will be triggered if any of the following entries are made: License Type with License Application Received, Sent to Co. for signature, or Sent to HQ for Execution. The letters will appear for preview and modification if they are flagged "Modify First" in the Documents table.

Overview

The Federal Register and Technologies page of the License Record Screen is the second page of the License record.

Functions

License: Federal Register and Technologies

The screenshot displays a software window titled "License [read only]: 15 of 2574 records in selection". It features a tabbed interface with the following tabs: "General Info", "Fed. Reg. & Technologies" (selected), "Royalties & Exclusivity", "Royalties Distribution", and "License Re...".

License Information:

- License Number: DE-212
- License Application: LIC-22

Federal Register Publication Dates:

	Initial	Subsequent
Request to HQ	00/00/00	00/00/00
Publication	00/00/00	00/00/00
Publication Vol./No.		
60 Day Expiration	00/00/00	00/00/00

Technologies:

Buttons: Add..., Delete, New Window...

Case No.	Applic'n No. Patent No.	Filed Date Issue Date	Application Title
OSC-13602-1	08 165,781	12/08/19	METHOD FOR DESIGN AND CONSTRUCTION OF EFFICIENT
	5,485,482	01/16/19	FUNDAMENTAL TRANSVERSE MODE SELECTED DIODE

Number of Technologies: 1

Find by... License # Dates Comp/POC Case # Royalties Active Lic. Query

*** Proprietary Information ***

The second page of the License input form is also divided into two sections, status dates regarding Federal Register Publication and related Technologies. Clicking the *Add* button on this page will allow entry of related technologies. The user will be prompted for a case number of the related technology, which must already be in NASA TechTracS. The record may then be deleted with the *Delete* button. Note that this does not delete the technology record, only it's relation to this license record. Clicking the *New Window* button will allow a view of the Technology table independent of the current data session. This will take a minute to start the first time, but will be quick at any later request for a new data window.

The new data window can be navigated like the window the user already has.

Overview

The Royalties & Nature of Exclusivity page of the License Record Screen is the third page of the License record.

Functions

Nature of Exclusivity

Find by... License # Dates Comp/POC Case # Royalties Active Lic. Query

*** Proprietary Information ***

The third page of the License input form concerns royalty payments and the nature of the exclusivity of this license. Clicking *Add* inserts a new line of royalty data in the grid under the button. There is a popup in the first column of data with the following options: "IF" for Initial Fee, "AMR" for Annual Minimum Royalty, "RR" for Running Royalty, and "Other" for Other royalty. All four options update the "Cumulative Amount Received" while only the first three have their own independent cumulative totals represented. The totals will instantly reflect changes made to the "Amount Received" column. Also, if the type of a royalty is changed, the "Amount Received" will be added to the appropriate total. The columns of this grid can be resized as needed and a "column lock" can be dragged from the bottom left to prevent that column from scrolling horizontally.

With Mod67 a new boolean field, *Royalty Applied*, is available that indicates whether the distributions have been made for the royalty.

Clicking the Add or Edit button reveals the License Royalty Simple Input form.

Find by... License # Dates Comp/POC Case # Royalties Active Lic. Query

*** Proprietary Information ***

The fields that were modifiable in the scrollable list of the License screen are also available here. In addition, for reference purposes, a list of Royalty Recipients is presented.

Checking the *Royalty Applied* checkbox prompts the user to confirm that the royalty should be applied and, if acknowledged, creates the proper Royalty Distribution records for the selected Royalty and adjusts the YTD Distributions and Lifetimes Distributions in the associated [People] records.

Unchecking the *Royalty Applied* checkbox prompts the user to confirm that the royalty should be reversed and, if acknowledged, deletes the related Royalty Distribution records for the selected Royalty and adjusts the YTD Distributions and Lifetimes Distributions in the associated [People] records.

Overview

The Royalty Distribution page of the License Record Screen is the fourth page of the License record.

Functions

*** Proprietary Information ***

This page has a section for adding Royalty Recipients and Royalty Distributions. If no recipients are displayed then use the *Add* button to add them. Clicking Add inserts a new blank line with a popup to select the type of recipient. Types are *Field Center* or *Innovator*. Selecting Innovator from the popup prompts the user for the name of the Innovator in a window where a matching innovator may be selected.

Once recipients are entered, they may be added to the distribution via the *Add* button above that area or the *New Distribution* button above that area. The *Add* button will display a list of available Recipients, while clicking the *New Distribution* button will add all of the available recipients to the distribution.

Totals for Inventor, Center, and Other are kept current during entry. The Other total is updated with distribution amounts applied to field centers that are different from the user's field center. The column widths of the two grids may be resized if necessary, and the column lock may be changed from its default third column.

Overview

The License Reports page of the License Record Screen is the fifth page of the License record.

Functions

License: License Reports

The screenshot displays the 'License Reports' window. At the top, the title bar reads 'License [read only]: 15 of 2574 records in selection'. Below this, there are input fields for 'License Number' (DE-212) and 'License Application' (LIC-22). A tabbed interface shows 'Fed. Reg. & Technologies', 'Royalties & Exclusivity', 'Royalties Distribution', 'License Reports' (selected), and 'Chrono...'. Below the tabs are 'Add...', 'Edit...', and 'Delete' buttons. The main area contains a table with columns: 'Report No.', 'Report Due', 'Report Received', 'Days Late', and 'Comments'. Each row has input fields for 'Net Sales', 'Gross Sales', 'No. of Products', and 'Sublicensing Royalties'. Below the table, it says 'Number of Report Records: 0'. Further down are fields for 'Cumulative Gross Sales', 'Cumulative Sublicensing Royalties', 'Cumulative Net Sales', 'Cumulative Units Sold', and 'Units'. At the bottom, there is a 'Find by...' section with buttons for 'License #', 'Dates', 'Comp/POC', 'Case #', 'Royalties', 'Active Lic.', and 'Query'. A status bar at the very bottom reads '*** Proprietary Information ***'.

This page allows the entry of License Reports and reflects the totals for *Gross Sales*, *Sublicensing Royalties*, *Net Sales*, and *Units Sold*. The *Add*, *Edit*, and *Delete* buttons allow control of the records displayed in the License Reports scrollable area.

Adding or Editing a License Report

The License Report input form has entry fields for *Due Date* and *Received Date* where the Days Late is calculated by NASA TechTracS upon entering into these two fields. If the report is late, the Days Late number will appear in red.

Report Contents may be added by clicking the *Add* button that will create a new empty line of data with popups for *Report Code*, *Item Type*, and *Unit*. The *Comply* column is changed by a double-click and will have the value of "Yes" or "No". The totals in the upper right corner of this form will be kept current during entry based upon the Report Code selected from the popup in the Report Contents section. Upon accepting this form the totals on page five of the License form will be updated from the totals on this form.

Report Contents

Report Code	Items	Amount	Units	Comply

Number of Report Contents: 0

The *Report Contents* are identified by *Report Codes* and *Items*. NASA TechTracS has a set of sample data available for selection by the user in these popups as of this release. However, because the needs of each NASA TechTracS installation vary, a DBA may change the options in these popups via the [xTextCodes] table. In the [xTextCodes] table, there are currently two types of records, *Reports* and *Items*. This type indicates where the respective data can be applied when entering a Report Content record. When adding a new *Report Code* or *Item* the DBA should enter one of these types and select the checkbox for *Show In Main* for the new option to show up in the proper popup.

In addition, the user may add a custom Report Code or Item by selecting the "X ? Add Other" item in either of the two popups. This custom Report Code or Item will then be available for use at any later date by selecting "X ? Add Other" to get to the available custom options.

License Milestones Record Screen

The screenshot shows a software window titled "License Milestones: 3 of 3 records in selection". The window contains several sections:

- License App.**: LIC13-7
- License Number**: DN-920
- General Information**:
 - Number**: DN-920-107
 - Date Due**: 03/15/2000
 - Days Late**: 0
 - Period**:
 - Date Completed**: 00/00/00
 - ☐ **Accomplished**
- Activity Description**:

Modify code for use with the TL-9002 Micro-controller
- How Verified**:
- Date Verified**: 00/00/00
- Milestones Chronology**:
 - Buttons: Add..., Edit..., Delete
 - Table:

Date	Number	Notes
06/20/2000	DN-920-10	test2
06/18/2000	DN-920-10	test1
 - Number of Chronologies: 2
- Last Updated By**: galmer

At the bottom of the window, there is a taskbar with various icons and a "Query" button.
